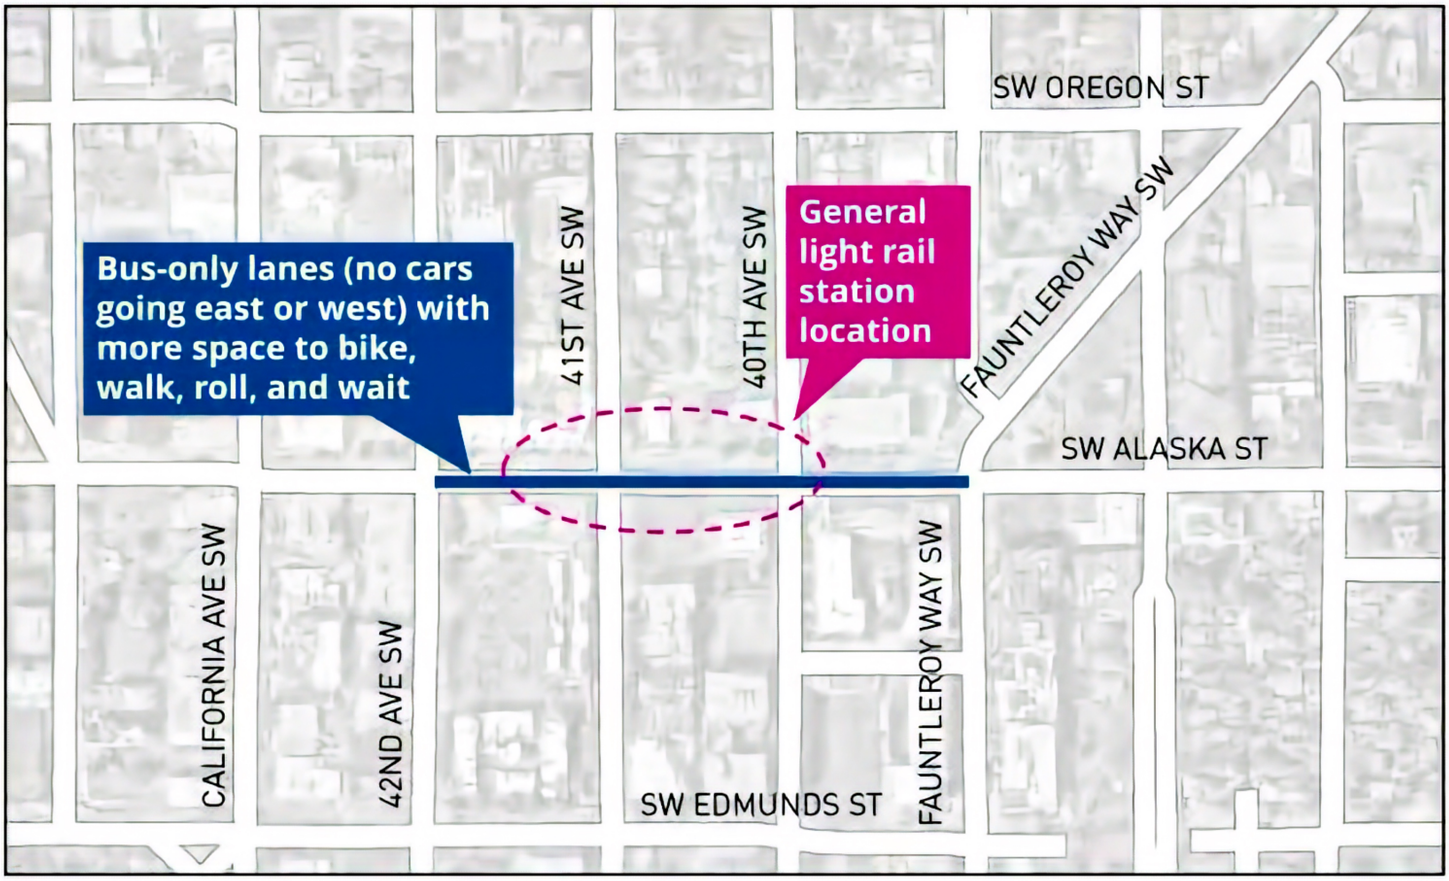
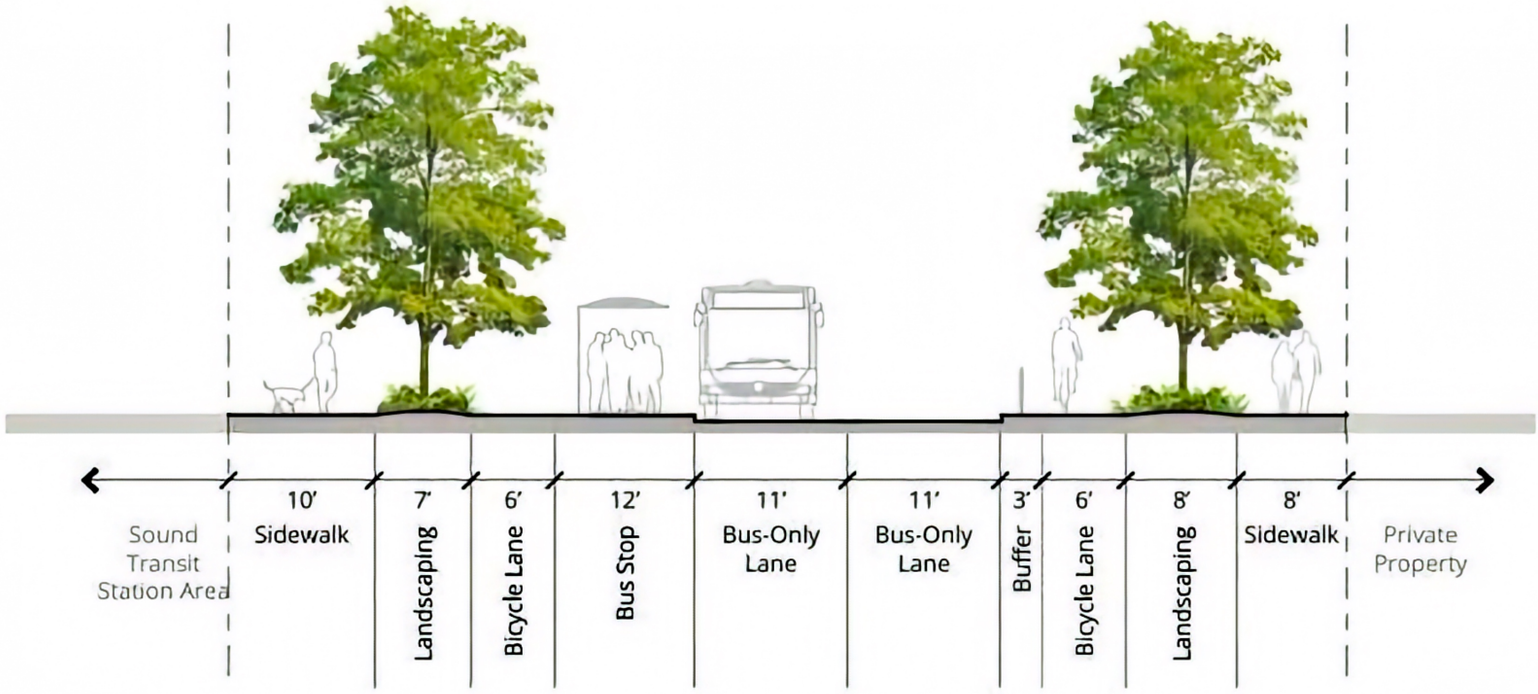
Seattle Department of Transportation

CHANGES TO SW ALASKA ST NEAR THE FUTURE ALASKA JUNCTION LIGHT RAIL STATION



The changes above are from the West Seattle Light Rail Station Area Street Concept Plan, which was adopted in 2024 to support future West Seattle light rail stations. Sound Transit has made some changes since the plan was adopted and they will share updated station information soon. SDOT's project will reflect station changes as needed.


WHAT SW ALASKA ST COULD LOOK LIKE NEXT TO THE FUTURE STATION
